

PDAC: helping you get the best settlement for your client

The physicians at PDAC have significant experience with chronic pain patients and with legal cases involving personal injury. We are experienced in the preparation of OCF-22 and OCF-18 forms, and achieve a high rate of approvals.

Our medical report will assist you in getting your client the best compensation package possible.

Dr. Peter Rothbart

The Founder and Medical Director of PDAC is a world expert in chronic pain.

Dr. Rothbart is Chair of the Chronic Pain Section of the Ontario Medical Association, past Chair of the North American Cervicogenic Headache Society and on the executive of the Canadian Academy of Pain Management.

He founded the Rothbart Pain Management Clinic in 1982 and has established the Rothbart Rehab Clinic, a multi-disciplinary treatment program for personal injury clients.

assessments that stand up in court

Pain & Disability Assessment Centre

Professional assessments that hold up under scrutiny

In your professional practice, you often deal with clients who are in pain. Whether their personal injuries were caused by a car accident, a slip and fall or a mishap of some other type, they deserve compensation for their suffering – compensation they can use to get the best medical and psychological treatments possible, so they can cope with their new realities of daily living.

You owe it to your clients and to yourself to use PDAC

The Pain and Disability Assessment Centre (PDAC) is affiliated with the Rothbart Centre for Pain Care, one of the largest pain management facilities in Canada.

PDAC specializes in medical assessments for personal injury cases, both SABS and TORT. We have the expertise to determine which medical assessments are the most appropriate for your client, and will bill these assessments to an insurance provider where possible.

We offer the assessments and reports you need to create the best case

Our Specialties:

Chronic Pain Assessments: Our pain specialists are certified as **Diplomats** by the American Academy of Pain Management as well as **Fellows** of the American Academy of Disability Evaluating Physicians.

Determination of Catastrophic

Impairments: CAT assessments are becoming increasingly important in order to access the enhanced benefits available in SABS. Our specialists combine psychological, orthopedic, neurological and other impairments according to the AMA Guide 4th Edition.

Productivity Consulting: a complimentary service offered to PDAC legal clients. Senior consultants review files and provide assessment recommendations as part of the file strategy.

Other Services:

- Orthopedic Assessments
- Psychological and Psychiatric Assessments
- Neurological, Neuro-Psychological and Neuro-Psychiatric Evaluations
- Rheumatology Assessments
- Psycho-Vocational Evaluations and Vocational Assessments
- Diagnostic Radiology
- Functional Ability Evaluation (FAE)
- In-Home Assessments
